Where Agents are Patrol-  
ling Roads

## BIG PROFITS IN GAME

Offer Men \$1,000 to Make Three  
Trips Across Border in  
Automobiles

Machine guns have been sent to the Canadian border for use in combating whiskey runners during the next two months, before winter stops traffic altogether.

A hurry-up call was made for the guns and the Adjutant-General's office loaned two Browning machine guns carrying 500 shots each in their magazines. The guns, it is said, will be used by both federal and county officials.

Two inspectors of the state license department, who have returned from Bottineau county, where they have been operating for several days, tell stirring tales of whiskey running.

Mr. Profit Made.

They also revealed the immense profit being made by liquor runners, who succeed in getting their cargoes through. They buy much liquor for \$40 a case inside the Canadian line, some of it being priced as high as \$6 a case, or from \$3.50 to \$5.00 a quart. They expect to dispose of it for an average of \$20 a quart.

The state inspectors claim that Canadian wholesalers are cooperating with the whiskey runners. They will send a "tow car" across the line to meet whiskey runners and guide them into Canada, they say. They then will send the "tow car" ahead on the American side for several miles to see if the roads are clear.

The country is level in the northern part of Bottineau county, and on nearly every section line there is a road. The small force of federal, state and county officials are able to patrol only part of the roads. The manner in which they captured two whiskey runners was related by inspectors.

Trap Two Cars.

They say two cars on the Canadian side and road back in their machine around a knoll. As the two cars came one inspector jumped into the road and turned the cars around and started back to the line but two inspectors armed with rifles barred their path.

Since the officials became active since one man was killed last week by a deputy of County Sheriff Hennessey, of Bottineau county, the pair of chauffeurs for "whiskey slices" has gone up, the inspectors report. The price offered usually is \$1,000 for making three trips with a car across the line, a distance of about 70 miles on each round trip, with the chauffeur offered \$1,000 and a Buick car to take a load of whiskey to St. Louis.

Cars have come from Minnesota, Indiana and even from Texas and Oklahoma to transport whiskey. It is said Bottineau county is a favorite "port of entry" because of the level land, but many runners who carry stuff to Minneapolis drive past the Turtle mountains on the Canadian side and then cross.

The whiskey is placed in sacks to conserve space in automobiles. It is claimed by inspectors that they found 80 cases of liquor in two cars, the "real price" of the liquor being about \$15,000.

So swiftly do the whiskey runners drive that farmers near the border are afraid to get out on the roads at night. All types of men operated, it is said. The man who was killed had a wife and four children, and his wife thought he was traveling for a Sioux City, Ia., auto accessory house.

Officials frankly admit that if the use of firearms does not stop the runners, many can get through, because there is not a sufficient number of officers to guard all roads. They believe, however, that the fact that a katchewan voted dry, effective January 1, will put a crimp in the business. The liquor dealers in the province have 60 days in which to dispose of their stocks.

ELECT GOVERNORS  
ON THESE DATES

(The letter "D" or "R" indicates party of governor now in office.)

11 CHINESE ARE  
SHOT BY CREW

New Orleans, Nov. 2.—Eleven Chinese members of the crew of the British steamship Elmleaf were wounded early during today when guards resorted to pistol fire to quell a mutiny aboard the vessel.

EVERYBODY IS INVITED TO ATTEND  
BIG TOWN CRIERS-TRIBUNE "ELECTION  
PARTY TONIGHT TO HEAR RETURNS

"Join in the election party!"

It's on tonight, beginning at 9 p. m., and it will be held on Broadway, just off Fourth street.

The Town Criers are to be the sponsors for the party. They have rigged up a lantern, to be placed in a window just above Hoskins' store. A screen will be hung on the side of the Lucas store.

Beginning at 9 o'clock election flashes will be put on the screen. The returns will be furnished by The Tribune through its special wire facilities.

Everybody is invited. There won't be any politics in it. The returns, as they come in from all over the country, will be shown.

In the east the polls close about 6 p. m. in most states. Voting machines are used and by 9 o'clock fairly complete returns will be available from the pivotal states.

The Tribune, Fargo Forum, Minot News and Grand Forks Herald will operate the only comprehensive system of gathering election returns in North Dakota. With the state districted, each one of these points will endeavor to get returns as quickly as possible. It is expected that the vote of many cities on President and Governor will be available tonight, but, as usual, rural precincts will be slow. A special effort will be made to get returns from Nonpartisan league territory as quickly as from cities.

Returns will be sought from official sources.

With the weather man promising a record night it is expected that the town criers-tribune party will draw hundreds of people.

Do not come to The Tribune office for returns—a corps of men will be busy collecting returns, tabulating and preparing bulletins for the showing on Broadway.

NEW ALLOTMENT  
OF GUARD UNITS

A new allotment of units for the fourth Dakota national guard will be made at a conference to be held Nov. 10 in Omaha, Neb., which will be attended by Adjutant-General Fraser and Major Harold Sorensen, representing North Dakota.

Representatives of all the states in the Seventh Corps, including North and South Dakota, Minnesota, Iowa, Nebraska and Missouri will be present.

It is reported that Company E, Williston, will soon be organized sufficiently for inspection.

RECOVERY FROM  
WAR IS RAPID,  
BOARD REPORTS

"Proceeding Apace" in United  
States, Assertion of U. S.  
Officials

## EMPLOYMENT SLACKENS

Washington, Nov. 2.—Recovery from war and post-war conditions is "proceeding apace in the United States," said the "natural forces in evidence which make for stabilizing carry-over for the future," the federal reserve board declared today in its monthly review of business conditions.

Although the readjustment process has been marked by uncertainty and some suspension of activity, the board described the economic and business situation as a whole as one showing much inherent strength and an ability to attain a position of relative stability through an orderly transition. It argued that the necessary changes in the direction of normal conditions could be accomplished without great disturbance unless unforeseen factors entered into the process.

Crop yields have on the whole justified the expectation expressed at the opening of the month. Banking reserves have held their own during the month and there has been a steady improvement in the liquidity of paper.

Labor is less fully employed. Notwithstanding some sporadic cuts in wages here and there the general position is about as good as it has been so far as actual payments or rates of wages are concerned.

Reports from almost all sections indicated that the retailer had determined to await further developments before renewing his stocks heavily. The outstanding orders were reported to be small and the general purchasing activity of the retail merchant was described as "very conservative."

SEEKING COAL  
FOR NORTHWEST  
BEING SOUGHT

Lt. Baker Visits Washington  
Conferring with Officials  
on Situation

An effort is being made by representatives of four states to hurry the shipment to the Northwest of great quantities of coal, to avoid a serious shortage during the winter.

Part of the effort is being made by the representative of North Dakota, who conferred with Washington officials and with Judge McGee, Minnesota fuel commissioner, who has been in Washington for some time.

It is estimated there are about 1,500 tons of bituminous coal at the lake docks, and it is desired to bring 1,500,000 tons of coal additional to the lake ports for shipment to the four states. It is estimated that the stock of anthracite is about 600,000 to 700,000 tons more in four states.

The usual division of coal coming to lake ports is made on the following basis: Minnesota, 43.6 per cent.; Wisconsin, 33.33 per cent.; North Dakota, 8.88 per cent. and South Dakota, 8.22 per cent.

FOUR BILLION  
SAVED ON WAR  
SALES, CLAIM

War Department Issues Detailed  
Statement of Disposition of  
Goods

SALES \$4,675,343,881.15

Says That Effort Was Made to  
Reduce High Cost of Liv-  
ing

Washington, Nov. 2.—The war department today answered charges that the government had sustained great loss through the sale of surplus war supplies with the claim that it had "saved over \$4,675,343,881.15 to the taxpayers of this country" through the sale of such supplies and "settlements of claims."

The department made public a statement detailing that to have a proper understanding of the situation it "must be remembered that the department in purchasing war materials it was contemplating a field force of 5,000,000 men."

Declaring that had the war "continued another year the supplies on hand at the signing of the armistice would have been totally inadequate."

Sales of war materials overseas aggregated \$32,923,225.82, while France it continued, purchased goods for \$532,500,000 and in addition waived customs duties estimated at approximately \$150,000,000 and further assumed the payment of 150,000 claims against the United States arising out of American occupation and use of installations and lands.

The statement said: "The war department saved to the taxpayers from the sale of surplus of war materials in Europe \$372,923,225.82 plus the claims for damages which would have been entered against the government. Thus the claim that the property which had cost this country \$1,390,889,302, was disposed of to the French government for \$4,000,000 payable in ten years, is extremely erroneous."

In addition to the supplies sold overseas the department said equipment valued at \$672,000,000 was returned to the United States.

As to sales in this country, the department asserted that the sales division disposed of property which cost the government \$1,132,067,476.92 and that "the return to the United States had been \$439,378,417.42."

The statement asserted that "to reduce the high cost of living," the war department in the last year and a half had sold approximately \$83,000,000 worth of food supplies at sixty per cent. of their cost value.

With reference to the charges that sugar was sold to France for two cents a pound, the statement declared that 8,000,000 pounds of sugar was sold to that country at 2 cents a pound and that 400,000 pounds to the American Relief Association at the same price.

Settlement of Claims.

As to the settlement of claims "involving both formal and informal contracts terminated by reason of the cessation of hostilities," the statement said the total amount of such claims or the value of the uncompleted portion of the contracts amounted to \$3,300,854,411.22 and that the basis on which the settlement of these claims had been made by the claim board had "resulted in a net saving to the government of \$2,563,035,237.51."

The statement characterized as "absolutely unwarranted" charges that the army abandoned only 17,000 American-made shells to France and that 72 American-made guns reached the American forces at the front. It declared that up to Armistice Day, 8,209,000 American-made shells, "or one half the total number of the shells expended by our forces during the war period" had been sent to France.

At the time of the armistice, the statement went on to say, the United States had in France 3,500 pieces of artillery, of which nearly 3,000 were of American manufacture. It was stated that the American forces used on the first line 2,250 pieces of which 130 were made in America.

Langer in Mandan

William Langer, Attorney General, who has been speaking for the anti-trust ticket, closed with a speech in Mandan last night.

MASSACHUSETTS  
TOWN IS FIRST  
TO GIVE VOTE

Little Massachusetts Town,  
Where Everyone Voted Early,  
Makes Report

## HEAVY VOTE IS GENERAL

Much "Scratching" is Reported  
in Wisconsin in the Early  
Voting

Boston, Nov. 2.—The town of New Rockford, in Berkshire county, was the first in the state to report its vote for President today. The tabulation of the vote was completed at 7:30 a. m. and resulted as follows:

Harding—23.  
Cox—8.

Four years ago New Ashford gave Hughes 16 and Wilson 7.

Topeka, Kans., Nov. 2.—The first election returns here reported at 10:30 a. m. from three city precincts incomplete. Two in the second ward gave Harding 54, Cox 81, and Debs 1. Incomplete returns from four precincts out of 55 in Topeka at 11 a. m. gave Harding 109, Cox 99. Under the double election system the count began at 10 a. m.

New York, Nov. 2.—Men and women voters of the forty-eight states went to the polls today to select a new president.

Second only in interest in the contest for the President is the fight of the major parties for control of the congress. Thirty-four senators, 32 to fill seats now held by 17 Democrats and 15 by Republicans, and two to fill unexpired terms caused by death of Democratic senators, are being chosen as well as an entire new house composed of 435 members.

The present senate is composed of 7 Democrats, 48 Republicans and one Republican-Progressive. The present house consists of 190 Democrats, 232 Republicans, 2 Independent-Republicans, 1 Independent and 1 prohibitionist. There are also nine vacancies.

Will H. Hays and George White, Republican and Democratic national chairmen, respectively, each continued confident of victory at the polls.

Senator Harding spent election eve quietly at his home in Marion while Governor Cox wound up his campaign at a big meeting in Toledo. State and local candidates kept up their quest for votes into the dark hours of the night.

Senator Harding will await the verdict at his home in Marion where he will receive news bulletins from figures compiled by the Associated Press. Governor Cox will receive bulletins in his newspaper office, the Dayton Daily News, which is a member of the Associated Press, and will receive the full night wire service.

(Continued on Page Two)

SEES SHORTAGE  
OF AUTOMOBILES  
IN THE SPRING

M. B. Gilman Tells of Conditions  
Found on Visit to Auto  
Center

M. B. Gilman, the local dealer in Dodge Brothers cars, has returned from a trip to the factory at Detroit, Michigan, and to other automobile manufacturing centers.

Mr. Gilman reports that Dodge Brothers plant is one of two plants which are building cars in great quantities as ever. Each day as regular as "clock-work," 625 brand new Dodge leave the final test and are shipped. A few of these are boxed for foreign shipment, but the greater number are scheduled for dealers in this country. This production of 625 cars per day has been maintained, without variation for several months.

A large building program is under way and which will, when completed add over one and a half million square feet to Dodge Brothers already enormous plant. It is expected now that these new buildings will be ready for use some time in April.

Dodge Brothers have always maintained that nothing could ever affect the high quality of workmanship and materials for which their product has become so well known. Their price is established and rather than modify this, their policy is to try to put in greater and greater value.

Price is generally not considered in connection with the kind of quality car Dodge Brothers build and which bears the name of builders who are jealous of their good name.

The sentiment the country over seems to be that with the almost general closing down of manufacturing plants that as no cars are being built the shortage of motor cars of all kinds will be greater than ever. Those plants that are able to keep under production are doing their dealers a great service in being able to furnish at least a few cars, and to keep their organization together. Many dealers today are finding themselves with absolutely no merchandise to offer their trade.

## ELECTION BULLETINS

Kansas City, Nov. 2.—Incomplete returns from 56 scattered precincts in Kansas at 1:30 this afternoon show:

Harding.....1,136  
Cox.....302

For Governor:

Allen.....548  
Davis.....612

For U. S. Senator:

Curtis (R).....744  
Hodges (D).....463

Oklahoma City, Nov. 2.—Incomplete returns from 3 of the 58 precincts in Oklahoma City at noon today gave Cox 222 and Harding 87.

Leavenworth, Kan., Nov. 2.—Incomplete returns from 13 precincts here at noon gave Harding 450; Cox 250.

Atlanta, Ga., Nov. 2.—Eugene V. Debs, Socialist nominee for President, in a final campaign statement today said:

"I shall not be disappointed for the results of the election as the people will get what they think they want insofar as they will think at all."

Hutchinson, Kan., Nov. 2.—The first 552 ballots incomplete, in 10 precincts out of 15 in Hutchinson gave Harding 409; Cox 153.

Sioux Falls, Nov. 2.—An extremely light rural vote will reduce the total number of votes cast in South Dakota to 60 per cent of the registration.

St. Cloud, Minn., Nov. 2.—St. Cloud election day was bright and clear with roads in the country rough from heavy rainfall. The vote was very heavy early in the morning.

Boston, Nov. 2.—The town of Norwell, in Plymouth county, voted as follows: For President: Cox 34; Harding 409.

Boston, Nov. 2.—The town of Mashpee gave Cox 1; Harding 43. Four years ago the vote was Wilson 21; Hughes 12.

Wichita, Kansas, Nov. 2.—The first 258 ballots counted in six of the 20 precincts in Wichita gave Harding 108; Cox 30.

Parsons, Kan., Nov. 2.—First returns in Parsons gave Harding 32 and Cox 22.

Dayton, O., Nov. 2.—Governor Cox, the Democratic presidential candidate, was an early voter, but on arriving at the polls, found more than 200 of his neighbors had cast their ballots ahead of him.

JOB SEEKERS, CONFIDENT THAT  
HARDING WILL WIN, BEGIN RUSHPOLLS GUARDED  
IN CHICAGO AS  
VOTE IS CAST

Interest Centers in Hot Gubernatorial Contest of G. O. P. and Democrats

Chicago, Nov. 2.—Cold weather, overcast skies and promises of snow today did not lessen the interest of Chicago voters in the keenest political struggle in state history and long lines in front of polling places at an early hour gave promise of a record vote.

Major interest centers about the gubernatorial contest in which former state treasurer, Len Small, and former United States Senator James Hamilton Lewis are standard bearers for the Republicans and Democrats, respectively.

Reports of irregularities at polling places reached the offices of the election commission and special details were assigned to precincts where clashes were feared.

NEW JERSEY  
USES BARRELS  
FOR BALLOT BOX

Hours at Which Polls Will Close  
Through Nation Election  
Day

New York, Nov. 2.—The use of barrels for ballot boxes was one of the expedients adopted at some of the polling places in New Jersey today as a result of the greatly increased vote due to suffrage. It was indicated that owing to the large number of women registrants throughout the United States the same congestion prevailed elsewhere. In Boston the polls were kept open until 5 p. m. instead of at 4 o'clock. In Georgia except in the county seats the polls were to close at 3 p. m., and in the county seats at 6 o'clock.

Voting is going on today in more than 100,000 election precincts in the 48 states, in three of which, North Carolina, Virginia and West Virginia, polls close at sunset.

The hours at which the polls will close in the various states is as follows:

Alabama, 6 p. m.; cities (5 p. m. towns and country); Arizona, 6 p. m.; Arkansas, 5:30 p. m.; California, 7 p. m.; Colorado, 7 p. m.; Connecticut, 6 p. m.; Iowa, 5 p. m.; Kansas, 7 p. m.; Kentucky, 4 p. m.; Louisiana, 7 p. m.; Maine, 5 p. m.; Maryland, 6 p. m.; city of Baltimore (7 p. m. outside); Massachusetts, 8 p. m. limit, optional to close earlier.

Boston 4 p. m.; Michigan, 5 p. m.; rural (8 p. m. cities).

Minnesota, 5 p. m.; Mississippi, 6 p. m.; Missouri, 6 p. m.; Montana, 6 p. m.; Nebraska, 8 p. m.; Nevada, 6 p. m.; New Hampshire, 6 p. m.; New Jersey, 6 p. m.; New Mexico, 6 p. m.; New York, 6 p. m.; North Dakota, 9 p. m.; North Carolina, sunset.

Ohio, 5:30 p. m.; Oklahoma, 6 p. m.; rural (7 p. m. cities); Oregon, 8 p. m.; Pennsylvania, 7 p. m.; Rhode Island, 7 p. m.; cities (6 p. m. in towns); South Carolina, 4 p. m.; throughout the state (5 p. m. Charleston); South Dakota, 5 p. m.; Tennessee, 7 p. m.; cities (4 p. m. country districts).

Texas, 7 p. m.; Utah, 7 p. m.; Vermont, 6 p. m.; Virginia, sunset; Washington, 6 p. m.; West Virginia, sunset; Wisconsin, 5 p. m.; Wyoming, 7 p. m.

WOMEN'S VOTES  
CAST EARLY IN  
MANY SECTIONS

Bismarck Booths Thronged Immediately After Polls Open  
at 9 a. m.

## POLLS CLOSE AT 9:00 P. M.

Excellent Weather Reported  
Throughout Nearly the Entire State

Close to 200,000 votes are being cast in North Dakota today.

With almost perfect fall weather over most of the state, it is believed that there will be a men's vote of 120,000 to 125,000 and a woman's vote of from 75,000 to 80,000.

Weather reports indicate clear weather in all parts. In the southeastern part of the state, however, Richland county caught the edge of the South Dakota snowstorm. Richland county is an anti-league county.

All political leaders were happy over the weather reports. An election, which would prevent a full expression of the voters of the state, would be unsatisfactory to political leaders.

From Fargo, Grand Forks and other cities came reports of a huge woman's vote. In Bismarck the women indicated their eagerness to vote in the eastern part of the city when a crowd of women gathered at the new Richland school before the polls opened at 9 a. m. It was predicted that 3,500 votes would be cast in Bismarck. Fargo predicted 9,000 votes, and Grand Forks and Minot 5,000 or more.

The weather bureau's report from the Williston station gave the lowest temperature as 22, the weather clear, with a light wind blowing. At Fargo it was 18 above with cloudy weather and a trace of snow. The day dawned bright in Bismarck, a perfect fall day. Clear weather was reported over most of Montana and clear weather in South Dakota, with considerable snow on the ground.

Urged to Vote Early

Voters everywhere were urged to go to the polls early, as many precincts have an unusually large number of voters this fall, and an after-dark rush was feared. The remarkable heavy vote indicated that returns would be slow.

J. F. T. O'Connor closed his campaign in Grand Forks last night with a great rally. A. C. Townley closed in Fargo with an open air meeting. Governor Frazier was to vote at Hoople and was expected to return to his home by evening.

The polls close at 9 p. m. The usual number of last-minute voters was expected to dwindle at this election because of the great interest.

Stop League Distribution

After the early morning rush subsided the vote was slower in getting out at the various polling places in the city. At 1:30 p. m. it was estimated that about 40 per cent of the vote had been cast in the city.

No trouble had been reported that way. Nonpartisan league workers began to distribute literature at the Northwest hotel, which is a violation of law, but were stopped.

In the first precinct of the First ward, where the voting places was C. B. Little's garage, 40 men and 44 women had voted at 1:15 p. m. out of 140 registered.

Many in Line

At the high school 30 men and women were in line at 1:30 p. m. This was the polling place of precinct No. 1 of the Third ward, and the total registration was about 70. At 1:30 o'clock 165 women and 115 men had voted.

The polling place of the Fifth ward was at the Soo hotel, and at 1:30 it was reported about 170 persons had voted. The lobby was crowded with people and small booths were provided.

Many Votes Were Sworn In

This ward was not divided, and with a vote of several hundred people, it was being closely watched. Practically all the election officials were regarded as favorable to the Nonpartisan league.

At the Northwest hotel, it was said that but 66 men and 55 women had voted at 1:30 o'clock out of a total registration of 236 men and 207 women. At the Bismarck hotel, at the same time, 118 men and 117 women had voted. The total registration in the precinct was 700.

Women Are Eager

Many women were eager to get to the polls early. It was a strange sight to an old-time politician to see men and women standing in line together, calling for the complete ballot. The fact that there were four ballots handed to each voter slowed the voting a great deal.

The first three voters at the fire hall were three sisters from St. Alexis. Twenty-five St. Alexis sisters and 12 from St. Mary's marched in a body to the polls.

Many aged women voted. Among the oldest was Mrs. Joanna Brunson and Mrs. E. S. Pierce. Mrs. Pierce was taken to the polls in an automobile and walked home. At the Bismarck hotel a woman came up in a wheel chair. One leg had been amputated.

GUARANTY BANK  
MOVING TODAY  
IN NEW HOME

Occupies Beautiful Structure on  
Fourth Street Between Broad-  
way and Thayer

Officials of the First Guaranty bank were busily engaged today in moving into the new Guaranty Bank building on Fourth street, opposite the Bismarck hotel. The new building, one of the finest new business blocks in Bismarck, has been under construction since early in the spring.

The banking rooms of the building are on the first floor. A spacious lobby is provided and ample rest room (and vault space) is provided.

The block on Fourth street is improving rapidly with the new bank building and the new Tribune building on the corner of Fourth and Thayer streets.

F. A. Lahr is president and E. V. Lahr is cashier of the First Guaranty bank.

JOHNSON'S  
Department Store

HALLOWE'EN IS  
QUIET, BUT NOT  
IN BIG PARADE

1,200 Bismarck Youngsters En-  
joy March Through Streets  
and Movie Show

WHOLE AFFAIR A SUCCESS

"Quietest Hallowe'en we ever had" was the verdict of the police on Saturday night.

But that only refers to pranks which damage property and make grown people forget they ever were kids. It does not refer to the big Town Crier's party for the boys and girls.

At least 1,200 youngsters assembled in the line of march for the parade Saturday evening. Probably three-fourths of them were dressed in grotesque or fanciful costumes, making noise and indulging in mimicry. The parade passed through the downtown streets led by the Workmen's band, and ended at the Auditorium, where the boys and girls saw several reels on the best moving pictures. Before the movie show each boy and girl was given a bit of candy and when they filed out after the show each was given an apple. Many parents were waiting for their children when the show ended on scheduled time, about 10 o'clock.

**Voted Big Success**  
The whole show was voted a big success by the kiddies, and the Town Criers and the "Good Fellows" who contributed to its success were more than gratified. Many Town Criers and their wives were at the Auditorium to keep the crowd, which filled the whole house in orderly channels. "We only had one police call, Hallowe'en," said Chief of Police Martinson. "Virtually no damage was done. The Town Criers parade and show was a mighty fine idea, for it gave the boys and girls a chance to have a wonderful time and get all the pleasure there is to get out of Hallowe'en without destroying anything."

The committee head of the affair was Spencer Bolso, with C. F. Bolt as marshal of the parade.

Many persons contributed to the success of the affair. In addition to previous lists published in The Tribune of persons who made contributions to the affair, the committee gives thanks to W. A. McDonald, Northern Pacific agent, for furnishing fuses which provided the red fire of the parade, the Publicity Film company, which joined the Eltinge and Orpheum theatres in furnishing films; the Stacy, Bismarck company, which in addition to other firms mentioned Saturday, gave apples or candy; and the following individual contributions: R. Webb, \$1.00; Geo. Upright, \$1.00; Geo. P. Little, \$1.00; Ed Berry, \$1.00.

Henry Hollet and Worth Lumry, in addition to making contributions themselves, obtained a number of contributions from other people and turned them into the fund through The Tribune.

Much praise was given the band of the Ancient Order of United Workmen, which made the first public appearance, and which contributed much to the success of the evening. The band rehearses regularly and has made great improvement.

NELSON WOULD  
MEET ATTACK  
IN OPEN COURT

Declares He Will File Suit  
if Leaguer Will Accept  
Responsibility

In reply to the challenge by the managers of the Nonpartisan League, Theo. G. Nelson, executive secretary of the I. V. A., today issued a statement in which he promises to arrest for criminal libel, any and all persons who will accept responsibility for the statements contained in the recent pamphlet which in a most vicious way attacks some of the I. V. A. leaders. Mr. Nelson's statement reads as follows:

"According to the Courier News of October the 28th, the present campaign of malicious slander against Mr. Emerson and myself was started because, we as officers of the Independent Association, have volunteered to furnish information regarding Socialism, Bolshevism, Proletarianism and State Socialism to any one who might request it. I don't believe that even members of the Nonpartisan League will voice approval of it. Decent people would not for the sake of

getting political vengeance become a party to slandering my wife and children, two of whom are attending the public schools of Fargo.

"The Independent Voters Association was organized for the purpose of gathering and disseminating information on questions of political economy. As its officers, we have gathered a great deal of data on many theories and issues pertaining to problems of government and we are only doing our duty when we are giving that information to the voters of North Dakota. Such information is needed now.

"There is nothing about my private or public life in any place where I have ever been for which is necessary to make apology. I have nothing to hide. My intimate acquaintances know that I am not a candidate for public office. Therefore, I have no right to gum up the gears and divert attention from the issues in this campaign, by injecting and airing of my personal affairs into it. These matters can be attended to later.

(Signed) THEO. G. NELSON.

**ROOSEVELT DREW  
RESERVATION, HIS  
SISTER ASSERTS**

New York, Nov. 1.—Mrs. Corrine Roosevelt Robinson, in a speech declared her brother, the late Theodore Roosevelt, had helped Senator Lodge draw up the Lodge reservations.

"When Theodore Roosevelt was ill in Roosevelt hospital," said Mrs. Robinson, "Senator Lodge wrote asking if he could see him, and my brother asked me to let him know he would be welcome. So Senator Lodge made a night trip to New York, and everyone of the Lodge reservations, for which Governor Cox has called Senator Lodge an archconspirator and traitor, was arranged in this conference and approved by Theodore Roosevelt."

Discussing Article X, Mrs. Robinson said Colonel Roosevelt, at the time of the Lodge conference, said he felt the League of Nations would be a war breeder rather than a war healer.

The London zoo has a cockatoo that is more than 80 years old.

A GREAT BOON

There are many mothers, nervous and rundown in vitality, to whom

Scott's Emulsion

would be a great boon. It's the very genius of Scott's Emulsion to build strength.

Scott & Borne, Bloomfield, N. J.

PRESIDENT AND  
WIFE MAIL VOTE  
TO PRINCETON

Washington, Nov. 1.—The President and Mrs. Wilson have voted in the Presidential election. They mailed their ballots at the White House and mailed them to Princeton, N. J., where the President heretofore has gone each election day to vote.

Nine other ballots were forwarded to New Jersey from the White House, including those of Secretary Tumulty and Mrs. Tumulty; Dr. Stockton Axson, a brother of Mr. Wilson's first wife; Charles Swen, the President's private stenographer, and other attaches of the White House.

These were the first ballots ever cast by Mrs. Wilson and Mrs. Tumulty and they were among the first of the great army of women enfranchised by the Nineteenth amendment to vote in the 1920 election.

386 ELECTORAL HARDING  
VOTES, CHAIRMAN SAYS

(Continued from page one)  
senators in other doubtful states where the electoral vote is not large enough to be indispensable. The salient example of states in the first category is Ohio, home state of the two principal candidates, with 21 votes, while the outstanding case of the second case is Nevada, with only three.

Other states where the eleventh-hour contest is intense with both parties hopeful of success are Arizona, Kentucky, Maryland, Tennessee, New Mexico, North Carolina and Oklahoma. All these, as well as the Buckeye state, are claimed by both parties.

Second only in the interest to the outcome of the voting is the subject "What Will Women Do?"

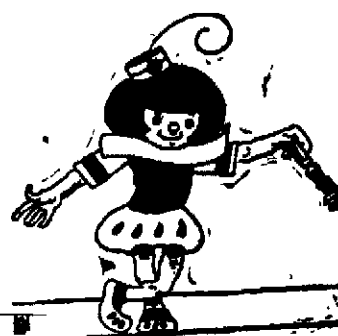

PREDICT SLOW RETURNS

Chicago, Nov. 1.—Claims and counter claims with desultory flashes of old-time political enthusiasm marked the conclusion of the campaign in the eyes of the central west today. Mystery as to the tide of the tremendous woman's vote was reflected in many eleventh-hour discussions of the situation. It was stated on all sides that the woman vote, together with expected ticket scratching in numerous districts, very likely would delay returns and create uncertainty where contests indicated that in practically all districts unusual steps have been taken to guard against fraud and to curb quickly any attempts to intimidate woman voters. In many instances the usual number of workers and watchers will be doubled.

CIRCULAR ON HARDING  
Columbus, Nov. 1.—Chairman William Durbin of the Ohio State Demo-

cratic state executive, today issued a statement denying that a young man closely connected with the Democratic state committee had brought certain printed circulars concerning the ancestry of Senator Harding, Republican presidential candidate, to Governor Cox's special train as contained in a statement issued last night by Scott C. Bonem, director of publicity for the Republican national committee. Chairman Durbin said in part:

"I repeat that we have no connection with the alleged circulation of pamphlets or reports. Furthermore I submit that reports of a similar nature have been current for thirty years, that they have figured in previous campaigns of Senator Harding and that they were prevalent all over the state and nation during the pre-convention campaign, circulated by Republicans who opposed him. Now, however, when such reports have been prevalent all during the campaign and were also in circulation at the convention that nominated him, Republicans attempt to bring a last-minute cry against the Democrats."

Handy Andy Says:

It doesn't pay to buy and use tools that cannot be depended upon. Good workmen like our tools because they have the right feel, and because they're the kind that won't break or go wrong when your job is half finished. Our tools help the carpenter and machinist to do better work and make the work easier. That's why so many experts come to us for tools and other hardware. Let us satisfy you.

LOMAS  
Hardware Co.  
Main Street

Nature gave us natural cosmetics in Palm and Olive oils—a lotion as well as cleansers. Their action is gentle, they are mild and soothing, as Cleopatra knew.

A secret of the stage  
every woman should know

Why you can buy it at the  
price of other soap

Because Palmolive is so popular that we make it in enormous volume. The Palmolive factories work day and night to supply the demand. The costly ingredients are bought in vast quantities.

The result is a moderate price which puts Palmolive within reach of all. Yet wealth can command nothing better.

Palmolive is sold by all dealers everywhere. It is supplied in bulk sizes by popular hotels the country over.

For years women of the stage have belied the theory that cosmetics injure the complexion. They use rouge and powder constantly, yet their skins are usually good. They look younger than other women. Actresses seem never to grow old.

The secret is simple—stage women know that cosmetics should not be left on. They keep their complexions so scrupulously clean that rouge and powder can't harm them.

How you can wash for beauty

By using your own two hands and a cake of Palmolive. Work up a thick, creamy lather and massage it thoroughly into the skin. Be sure every tiny pore and minute gland is cleansed from clogging accumulations.

Then rinse thoroughly—with your hands—until every trace of lather disappears. Apply plenty of Palmolive Cold Cream.

Do this every day and you needn't worry about a little rouge and powder. Your skin will be smooth and fine textured. Blackheads, blotches and pimples will never bother you.

A mild, gentle cleanser

Palmolive is the safe soap—the mild, gentle cleanser because it is made from Palm and Olive oils—the same precious oils Cleopatra used in the days of ancient Egypt.

These natural cleansers were a historic toilet luxury, adorning the sumptuous baths of classic days. Now their scientific combination in Palmolive achieves the greatest luxury of modern times.

# LEAGUE PAPER CLEANS SKIRTS ON PAMPHLET

And Throws Blame on Fargo  
Labor to Absolve League  
From Vile Effort

The political campaign which is in the hands of the voters today will long be remembered for the filthy tactics used by some politicians. The most glaring instance of this is the pamphlet distributed first in Fargo and throughout other parts of the state, attacking two leaders of the independent voters' association, neither of whom is a candidate.

The indignation aroused by the pamphlet caused some league leaders and league papers to repudiate it. Fargo labor was accused of circulating the pamphlet in an effort to absolve league leaders.

The Richland County Farmer says "Look out for political roobacks at the last minute."

"This paper was solicited to print matter it could not touch with a 10-foot pole."

"You can take it for granted that ninth hour matter derogatory to an individual or individuals is false."

"Decent people on both sides should absolutely resent filth at the last moment."

"A pamphlet issued at Fargo by the laborites touching the president and secretary of the I. V. A. is an instance of rooback stuff. Take no stock in a rooback. It is nasty, and the men who resort

# RED CROSS IS AIDING PEOPLE IN DIRE NEED

Vienna, Nov. 2.—The American Red Cross unit here is rendering assistance to the impoverished and suffering middle-class, the professional men and women, clerks, civil servants and others whose income have not materially increased and among whom there really are a large number of utterly destitute. Gifts of clothing to the families of 6,000 teachers have been made in one month alone. Others aided were the destitute political refugees of whom there are thousands in Austria, returned prisoners of war, refugees of every nationality in passage through this country trying to reach their homes.

With a very small personnel the Red Cross unit is working through the large number of established local relief organizations, notably the Society of Friends, in feeding children under six years of age, not reached by the great work of the American Child Relief, whose efforts are devoted to children between six and fourteen.

# HOUSING WILL BE DISCUSSED BY GOVERNORS

Madison, Wis., Nov. 2.—State governors will consider housing problems and ways to promote ownership of homes in their 12th annual conference at Harrisburg, Pa., Dec. 1 to 3. Other subjects coming before the governors this year, as announced by Miles C. Kelley, secretary of the conference, are:

Decentralization of governmental functions and activities, in relation to the developing tendency toward centralization in the national government.

The Kansas industrial relations court.

Sources of income and the disbursements of state governments.

The general agricultural situation.

Reports will be presented to the governors from the Commissioners on Uniform State Laws and the National Organization of State Railroad Commissioners.

"The coming conference promises to be one of the most largely attended and important gatherings of governors of our states that has ever been held," according to Secretary Riley. "Not only will most of the present governors be in attendance but a large number of new governors, to be elected on November 2."

"The conference will be held just prior to the convening of legislatures in most of the states, and will be of great interest to the governors who must submit their recommendations to these bodies."

# DEPARTMENT TO CONTINUE WAR ON PROFITEERS

Washington, Nov. 2.—The department of justice will continue its drive on profiteers "wherever and whenever found" regardless of the dissolution Monday of the fair price organization, according to a statement issued by Robert T. Scott, assistant to the attorney general, who formally announced the disbanding of the fair price committee. In a review of the organization's work, Mr. Scott claimed credit for the department in forcing down prices of many commodities.

Mr. Scott said that more than 2,000 cases had been instituted by the department and that scores of these had resulted in fines and prison sentences for profiteering.

"The objective of the department," Mr. Scott said, "has been, first, to eliminate the profiteer and, second, to make his field less attractive by educating the buying public to the wisdom of sane and sensible buying."

# JOHN BROWN IS SLIDE VICTIM IN COAL MINE

Marion, Nov. 2.—In a coal mine slide which occurred at the old Joe Mine, twelve miles north of Marion, West Virginia, yesterday afternoon, Johnnie Brown, a pioneer resident of this valley, was buried and instantly killed, while Mr. McNew was also buried by the falling earth, but was not mortally injured and was excavated in time to save his life.

These two men in company with several others were at work getting out coal, when the high bank of earth and rock, reaching some ten feet above the vein of coal, gave way and came down upon the workmen with a moment's warning. Mr. Brown and McNew were completely buried by the falling debris, the heavier part of which fell upon Mr. Brown, instantly crushing the life out of his body. William Sparks was also close to the falling earth and barely escaped being caught. Anxious men set immediately to work in an attempt to excavate the imprisoned men, and when the earth was removed it was found that Mr. McNew was still alive but Mr. Brown was dead, his head having been crushed.

Dr. Ewbank was called from Miami and an examination of Mr. McNew disclosed the fact that several ribs had been broken while he had suffered severe injuries about the head and body, although the last reports are to the effect that recovery will be rapid.

The body of Mr. Brown was brought to Marion and prepared for burial and shipment by Undertaker Frank Gibbs, and the funeral is being held this afternoon, after which it will be shipped to the old home at Orleans, Nebraska, for interment.

The deceased leaves a widow and one son besides many friends and relatives to mourn his untimely death. His son, Shigley, had only recently left to renew his educational work at Fargo, and the sad news was telegraphed to him there.

# 4 ARE KILLED IN A SNOWSLIDE

Twin Bridges, Mont., Nov. 2.—Four men are dead and one seriously injured as a result of a snowslide at the Pete and Joe mine, 15 miles northeast of this city. The men who were killed were Johnnie Brown, William Sparks, and two others. The fourth man was injured and is now in the hospital.

# ECZEMA!

Don't let your skin suffer from eczema. It's a skin disease that causes itching, burning, and discomfort. It can be cured with Vicks VapoRub. It's the best remedy for eczema. It's the best remedy for eczema. It's the best remedy for eczema.

# SCHOOL TEACHERS IN ST. PAUL TO HEAD SPEAKERS

St. Paul, Minn., Nov. 2.—The school days of teachers, attending the Fifty-seventh annual convention of the Minnesota Educational Association in St. Paul, November 3, 4, 5, and 6, will be recalled by an exhibit of old and rare school books at the Minnesota Historical Society building, during convention week.

Early day dictionaries, books on the theory of teaching and material depicting the development of educational work in the state will vie with the old McGuffey readers, Webster's spelling books and Dabell's arithmetic for recognition at the exhibit, by some of their former readers.

Records of former meetings dating back to 1861 when the association held their first meeting at Rochester, Minn., and other manuscripts will be added to the collection by the manuscript department of the historical society.

States used by pioneer pupils in the Minnesota one-room schools will also be placed on exhibition by the museum of the society.

The exhibits will be open to the public during the entire week of the convention and visiting teachers are urged to visit this building and renew acquaintances with their old and familiar school books.

# Ouch! Such Pain!

It takes you right in the back! Sometimes in the arm, hip or foot.

It's all due to an over-abundance of that poison, called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Doctor Pierce, which is, "Keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Auric." This can be obtained at any drug store, in tablet form.

Boy Raven, Minn.: "I have used Dr. Pierce's medicines with good results for years. At one time I was taken with La Grippe and it left me run down and with pains in my hips and back. I took different medicines without getting any benefit. At last I sent and got some Auric and took it and am feeling well and doing a good day's work. When I commenced taking the Auric I could hardly get out of bed, felt as though a knife was sticking in my back."—A. C. BLOOMETT.

# Too Weak to Do Anything

The ordinary every-day life of most women is a ceaseless treadmill of work. How much harder the tasks become when some derangement peculiar to her sex makes every movement painful, and keeps the nervous system all unstrung until life seems hardly worth living. Every women in this condition should profit by the experience of these two women whose letters follow.

## Read the Experience of These Two Women

Reading, Pa.—"I had organic inflammation, pains in the side and back which were so sharp that they pulled me to my knees, and I could not walk. I had an operation and still I failed, and in the eight years I suffered I had four doctors and none helped me. My mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I was then in bed, and after the first bottle I could be out of bed, then I took Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and also used the Sanative Wash. I still take the medicine and am able now to do my own housework. My friends say, 'My dear, you look well—what do you do? Who is your doctor?' And there is only one answer, Lydia E. Pinkham's medicines which I gladly recommend."—Mrs. Wm. Stein, 550 Douglas Street, Reading, Pa.

Gainesville, Tex.—"For three years I suffered untold agony each month with pains in my side. I found only temporary relief in doctor's medicine or anything else I took until my husband and I saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results, and advised me to try it. I was then in bed part of the time, and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound, and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work, and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M. Stephens, 202 Harvey St., Gainesville, Texas.

Such conditions you can readily overcome, and prolong life by taking the advice of Doctor Pierce, which is, "keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Anuric." This can be obtained at any drug store, in tablet form.

Roy River, Minn.—"I have used Dr. Pierce's medicines with good results in my family for years. At one time I was taken with La Grippe and it left me run down and with pains in my back and legs. I took different medicines without getting any benefit. At last I sent and got some Anuric and took it and am feeling well and doing a good day's work. When I commenced taking the Anuric Tablets I could hardly get out of bed, felt as though a knife was sticking in my back."—A. C. Blougett.

## Too Weak to Do Anything

The ordinary every-day life of most women is a ceaseless treadmill of work. How much harder the tasks become when some derangement peculiar to her sex makes every movement painful, and keeps the nervous system all unstrung until life seems hardly worth living. Every woman in this condition, should profit by the experience of these two women whose letters follow.

**Read the Experience of These Two Women**

Reading, Pa.—"I had organic inflammation, pains in the side and back which were so sharp that they pulled me to my knees, and I could not walk. I had an operation and still I failed, and in the eight years I suffered I had four doctors and none helped me. My mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I was then in bed, and after the first bottle I could be out of bed, then I took Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and also used the Sanative Wash. I still take the medicine and am able now to do my own housework. My friends say, 'My! but you look well—what do you do?' Who is your doctor? And there is only one answer, 'Lydia E. Pinkham's medicines which I gladly recommend.'"—Mrs. W. M. STEPHENS, 560 Douglas Street, Reading, Pa.

Gainesville, Tex.—"For three years I suffered untold agony each month with pains in my side. I found only temporary relief in doctor's medicine or anything else I took until my husband and I saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results, and advised me to try it. I was then in bed part of the time, and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound, and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work, and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M. STEPHENS, 202 Harvey St., Gainesville, Texas.

# FEWER PERSONS ARE KILLED ON U. S. RAILROADS

Figures Show 1919 Makes 10-Year Record for Deaths and Injuries

Washington, Nov. 2.—Fewer persons were killed in railroad accidents during 1919 than in any year since 1898 and fewer injured than in any year since 1910, said a statement issued today by the Interstate Commerce Commission.

During 1919 a total of 6,578 persons were killed and 149,053 injured, compared with 6,859 killed in 1918, and 119,507 injured in 1917. Of the killed during the year 277 were passengers and of the injured 7,236 were passengers. Employees killed during 1919 numbered 2,138 and 121,018 were injured.

Fewer trespassers on railroads were killed in 1919 than during any year of the commission's records, which go back to 1890. Last year 2,553 trespassers were killed and 2,558 injured. Railroad officials said there were less persons out of employment and fewer tramps than formerly, because of the war.

# FOOTBALL HURT MAY BRING DEATH

Michigan City, Ind., Nov. 2.—Killed alive for three days by official respiration, Edwin Wolff, a senior at Purdue university, Lafayette, Ind., today was said by doctors to be near death.

Wolff, son of a wealthy hotel proprietor, suffered an injury to his spine in an inter-class football game between the senior and juniors at Purdue, 10 days ago.

# CUT 24 MILLION OFF U. S. DEBT

Washington, Nov. 2.—Treasury operations in October resulted in a further reduction of the public debt, according to figures made public today showing the debt to be \$24,062,509,672. This represents a reduction of \$24,846,455 during the month.

# Stomach Out Of Order? Try NR

Nothing Better to Straighten You Out After Eating Too Much. Tones Liver, Regulates Bowels. Acts Pleasantly. Guaranteed.

Many people eat too much every day and must eat much too much some days. That is why Americans suffer more from indigestion, flatulence and constipation.

With a little thoughtfulness and care, however, a great amount of this distress could be avoided and still enjoy the pleasures of the table. The digestive and assimilative system—the stomach, liver, bowels and even the kidneys—its purpose is to digest food and eliminate the waste products of digestion. If this system is not properly regulated, the food is not properly digested and the waste products are not properly eliminated. This results in indigestion, flatulence and constipation.

Nature's Remedy, a powerful laxative, purgative, cathartic, and blood purifier, which works by the action of the bowels, restores the digestive and assimilative system to its normal state. It is a pleasant and effective remedy for all cases of indigestion, flatulence, constipation, and all other ailments of the digestive system.

Let it be the habit of the family to follow the use of Nature's Remedy, and always a cheerful spirit will be shown to those who first try it. The action is gentle and pleasant, and it is a pleasant and effective remedy for all cases of indigestion, flatulence, constipation, and all other ailments of the digestive system.

Nature's Remedy is a powerful laxative, purgative, cathartic, and blood purifier, which works by the action of the bowels, restores the digestive and assimilative system to its normal state. It is a pleasant and effective remedy for all cases of indigestion, flatulence, constipation, and all other ailments of the digestive system.

**Mrs. O'Leary's Lamp**

May have cost 25 cents but when the cow kicked it over, it cost Chicago \$150,000,000. Fire insurance costs little but it may save you a lot.

Fire insurance alone isn't much comfort to a man whose live stock has been killed or whose automobile has been stolen. The "Heartford" offers full protection of the most reliable kind.

Let's talk it over.

**MURPHY**

"The man who knows insurance"

Bismarck, N. D.

# NEW PORTRAIT OF FIRST LADY FINISHED

WASHINGTON—One of the most striking portraits ever made of Mrs. Woodrow Wilson is that by Seymour M. Stone, the famous artist, which has just been completed. Critics have been unanimous in praising the work.

# Wachter School Halloween Party Was Big Success

(Kiddies of the Wachter school district and those residing on the south side were entertained royally Monday evening at the Wachter school at a Halloween party under the auspices of the Daughters of Isabelle.

The committee which had the affair in charge was assisted by the teachers of Wachter's and St. Mary's schools, Miss Kolting, social welfare worker and Miss Stark, home demonstration agent.

Games were played and the children were treated to pop corn, apples and other refreshments. The party was voted a great success on all sides.

The Daughters of Isabelle wish to thank all those who participated in the affair and contributed to its success.

# Grammar and Washing.

"But Mrs. Wiesinger," spoke up one of the young women teachers, "if you were to take in washing, you would get \$6 a day, as against we teachers' \$5," and again there was laughter.

We should think, remarks the Portland Oregonian, there would also have been consternation, if the other guides of the young mind and guardians of good English who heard the remark were not wholly off duty. The paragraph is from the Oregonian's report of a meeting at Milwaukee, Ore., between the school board and the public school teachers.

It is interesting and very pleasing to note that Milwaukee washerwoman get \$6 per day. It is somewhat above the scale, we hear, in other places, though there was an interesting story in the papers the other day about the modern washerwoman's practice of going to work in her automobile.

But what we started out to say was that the particular school teacher quoted would do better, far better, on several accounts, to take up washing where no questions will be asked about her grammar. Or has the wicked reporter put words in her mouth that she did not use?

# Thought Cape Ann Greenland.

Cape Ann, which furnished a bleak and barren haven for adventurous explorers, was settled temporarily only three years after the Mayflower arrived at Plymouth. Some evidence indicates that Thorwald's "Cape of the Cross," which he thought to be a projection of Greenland, was the bleak Cape Ann. Capt. John Smith landed on what is now Cape Ann, and called it Tragabigzanda in honor of a Turkish Pacha who did not risk his head, but who fed him while he was a prisoner. Captain Smith explored the coast within two decades before the Pilgrims came.

Report like that of Captain Smith "angling with a hook, and croaking the sweet air from Isle to Isle" attracted many English fishing vessels. However, the early settlers seem to have sought their subsistence largely through agriculture. It was not until 1700 that the northeast corner of Massachusetts became identified particularly with fishing.

# Enjoyed Long Life.

They grew up long and hardy in the village of Shifnal, which claims the longevity record for England.

Headstones in a churchyard around the two star exhibits being the stones of William Winkley, "aged one hundred and twenty-four and upward," and Mary, wife of Joseph Kates, aged one hundred and twenty-seven, who married a third husband at ninety-two.

Winkley lived in the reigns of eight kings and queens.

Sell your cream and poultry to our agent, or ship direct to Northern Produce Co., Bismarck. Write us for prices on cream and poultry.—Northern Produce Co.

# HEAVY CANADIAN WHEAT IMPORTS

Imports of Canadian wheat and flour during the first 15 days of October were greater than in any corresponding period in the past seven years, the federal trade commission says in a report issued today to President Wilson. The report was based on an investigation ordered by President Wilson, after he had been asked to put an embargo on Canadian wheat.

# FATTENING SHEEP PROVES SUCCESS

Tower, Minn., Nov. 2.—The experiment of fattening sheep in this section has proved a success. Two carloads of wethers brought here from Montana last spring made wonderful gains, according to H. W. Pratt, manager of a ranch near here. The animals took on an average of more than 20 pounds in weight in less than four months, Pratt says.

# GRAND FORKS CASTS BIG VOTE

Grand Forks, Nov. 2.—A heavy vote is being cast in Grand Forks today, women especially turning out in force. In one polling place 52 women voted within half hour after polls opened. Three thousand people heard O'Connor and other anti-Townley candidates speak here last night. About eight hundred turned out for the league meeting at which Ladd was the chief speaker.

# REVIVE TAHITI LORE

Excavators Search Ruins for Relics of Ancient Worship.

Temples Where Human Sacrifices Were Offered Destroyed by Missionaries Centuries Ago.

Papeete, Tahiti.—The ancient lore of Tahiti is to be resurrected and the ruins of the temples of the South Pacific Islanders, ordered destroyed a century ago by Christian missionaries, are to be uncovered by excavation.

Efforts to gather the relics of a forgotten worship are being vigorously prosecuted here.

So completely were the wishes of the missionaries carried out that nothing remains save traces of the foundations of the great central temple of Marae Aotearoa, on Tahiti Island, where human sacrifices were offered to the bloodthirsty god of war, "Oro."

Excavations are expected to bring to light some interesting objects, which, it is hoped, will reveal the purposes and uses of this ancient structure.

Marae, while being the chief temple of Tahiti, was not the oldest or the most important in the islands. The temple at Opou, traces of which still remain on the island of Raiatea, was the sacred center of religion in the western Pacific and not until a stone from this had been incorporated in the structure did the Marae temple at Tahiti become consecrated.

It was at Marae that Captain Cook witnessed the ceremonies of human sacrifices chronicled in his "Voyages."

The natives, while professing Christianity and manifesting it by most active church attendance, have a deep fear of these places. Under no circumstances will they approach these temples at night, nor venture near them by day without great trepidation, believing that should they in any way offend the sleeping gods vengeance will come.

Returning to Reims.

More than 60,000 persons have returned to the ruins of Reims, where they are mostly living in the miles of wine cellars.

The Currency.

Out of a total currency supply of about \$6,000,000,000 in the country, it is estimated, less than half is in the banks.

# CUTICURA HEALED BOY'S ECZEMA

In Blisters About Ears. Scratched And Irritated.

"My little boy had a breaking out about his ears which developed into a severe case of eczema. The breaking out was in blisters causing him to scratch and irritate it very much. When he went to bed I had to tie his hand, and many nights he slept very little."

"I saw an advertisement for Cuticura Soap and Ointment and decided to try them, and after using four boxes of Cuticura Soap and three boxes of Ointment he was healed." (Signed) Mrs. E. B. Bowman, Mead, Michigan.

Cuticura For Toilet Uses

Use Cuticura Soap for toilet purposes, assisted by touches of Cuticura Ointment as needed. By using these delicate, fragrant, super-emollient for all toilet purposes you may prevent many skin and scalp troubles becoming serious. Cuticura Talcum is indispensable for every toilet table.

Sends Free by Mail. Address: Cuticura, Dept. 2, P.O. Box 1024, Lowell, Mass. 01450. Cuticura Soap shaves without soap.

# All Mothers Will Find Use For This Laxative

Give Dr. Caldwell's Syrup Pepsin to a constipated child and note its quick recovery.

IN a growing family the subject of thought with the parents is how to keep the children healthy and happy, and what to do when they become ill. Most illnesses of childhood are the symptoms of constipation, such as headaches, coated tongues, flatulence, dizziness, loss of appetite and sleep, biliousness, etc.

You can surely feel safe in doing what tens of thousands of others do with good results, so give, according to the age of the child, a small quantity of Dr. Caldwell's Syrup Pepsin. Eight million bottles were bought last year at drug stores. It is America's favorite family remedy for constipation, indigestion, and similar ills, and is especially suitable for children, women and old folks as it is so mild and gentle in action.

There is no secret about Dr. Caldwell's Syrup Pepsin. It is a combination of Eruption Soda and other simple laxative herbs with pepsin and pleasant tasting aromatics. Druggists have sold it for thirty years, and a sixty cent bottle will last for months. Experienced mothers are never without it in the house.

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington Street, Monticello, Illinois. Every body now and then needs a laxative, and it is well known the best. Write me today.

# JIMTOWN WOMEN'S VOTE IS HEAVY

Jamestown, Nov. 2.—The vote here is expected to be more than twice as large as the record vote of last June. It is believed that the fair weather will increase the O'Connor majority rather than lessen it because of the number of women voters. Election officials are having difficulty in handling the vote because of the immense vote. At 11 o'clock 91 men and 90 women had voted, in other places the women's vote was equal to the men's.

# MASSACHUSETTS IS FIRST TOWN TO GIVE VOTE

(Continued from Page One)

SAW IN S. D.

Sioux Falls, S. D., Nov. 2.—South Dakota awoke to fair weather. The sun promised to melt snow and keep the temperature slowly rising. gave promise of a heavy vote.

# ELECTION DAY—REAL HOLIDAY

Bismarck took on a regular holiday appearance today. Many of the stores of the city were closed because of election day, the state house and other public offices and the banks were closed.

There was no excuse for any person not voting today.

Providence, R. I., was the first city in the United States to have open-air schools.

# WHEN YOU ASK FOR S BUTTER A NORTHERN

## HAVE YOU VOTED YET?

Remember the polls are open until 9 o'clock this evening. If you have failed to vote before supper make it your first duty after the evening meal to go to the polls and register a vote against Townleyism.

It won't be too late to vote until after 9 P. M. The cause needs every vote it can get. Better late than never!

Prince Paul had better make sure that the scepter is not septic.

## A DEADLY WEAPON

Those who see pictures of lawn archery are likely to get the impression that the bow and arrow is a toy. So much has been said about superiority of firearms that many now have no realization that the bow and arrow also is a deadly weapon, even in the hands of a modern American. Dr. Saxton Pope and Arthur Young, both of California, demonstrated this when they went into Wyoming to kill grizzly bears for the museum of the California Academy of Sciences.

They used yew bows they made themselves. The bows were about five feet long. The arrows were a yard in length, with sharp steel points. The flight of such an arrow is plainly visible, but it has the power to pierce a bear's tough hide and thick rib. If no bones are struck, such an arrow has power to drive completely through a large bear.

This suggests that it was not so one-sided as might be imagined when pioneers with muskets fought Indians, armed with bows, in the early settlement of America.

Who's this fellow Parley who seems to be mixed up in so many strikes?

## MOTHER TONGUE

Nov. 1 to 8, is American Speech Week, during which the movie theatre is to take on a new function in many cities, namely, as a teacher of English to Americans.

On the silvery screen of the theatre, the daily crimes against the Mother Tongue will be exposed and the perpetrators urged to mend their ways.

Over the heads of the audience the rays of the stereopticon will flash such admonitions as this throughout the land:

Don't say, "I ain't got." Say, "I haven't."  
Don't say, "This is him." Say, "This is He."  
Don't murder English, it's your mother tongue. It ought to be a happy week for Mother Tongue than whom no mother is more abused, day in and day out, by her erring children.

The use of movie theatres as a medium for the dissemination of correct grammar marks another step in the progress of the movie as a universal educator. You couldn't get a handful of people to attend a lecture on applied grammar, but grammar lessons presented on the movie screen will reach thousands.

As a trusted teacher, the movie assumes grave responsibilities. Chief of these is the obligation to keep clean.

Blind men are out of luck; they're missing more these days.

## AMUNDSEN

Every once in a while there comes by courier a news item from the Arctic north about Roald Amundsen. At present his ship is jammed tight in the ice, and a prisoner of the frozen sea. Amundsen has settled down to pass the long Arctic night in waiting for the breaking of spring to release him that he may continue his journey toward the pole.

Amundsen is an epic figure of whom a Homer would have liked to sing. Homer's hero, Odysseus, came home to take it easy, after many adventures in which he overcame dragons and defied the spells cast by enchantresses.

But the interpid Amundsen scorns the ease and comfort that appeal to other middle-aged men who like to sit and doze at their fire-places on winter nights. It is only a few years ago that he negotiated the difficult Northwest Passage and scarcely had he returned from that voyage than he started on the journey that ended in his discovery of the South Pole.

And now his restless, questing soul is on its way again for another plunge into the unknown. It may be that he will not discover much that practical-minded men regard as of great value.

What new land he may discover can't be sold; nor put as collateral on a loan; nor turned into a

resort for summer boarders. But is it not the very fact that there is nothing really "practical" in Amundsen's adventure that makes it so gloriously worth while? Braving a thousand dangers and enduring unimaginable sufferings merely for the sake of adding a little bit to the sum of human knowledge, Amundsen presents an inspiring example in a time of selfish-seeking.

If onion extract is really a substitute for gasoline, perhaps the car would go farther on garlicker.

## SERVICE A LA PORTER

Consider the Pullman Porter!

Lowest in position and greatest in demand.

The great train-riding public doesn't stop to think often about the comfort that wouldn't be if it weren't for Mr. Porter.

The recipe for the porter that would come up to the standards desired by Mr. Man who takes a sleeper now and then, would stack up about like this:

Take a full amount of efficiency and mix well with an inexhaustable share of energy. Toss in some patience and cover the combination with a coating of promptness.

Service is the result!  
And that's what the traveling public wants. Does the traveling public stop to appreciate it when it gets it?

Give that thought the once over the next time you hop a Pullman.

Convention of Germans applauded the suggestion that the monarchy be re-established. You can get a crowd to applaud most anything.

## IN OTHERS' EYES

British writers in numbers have been looking this country over and recording their impressions of Americans. Now comes a Frenchman, Louis Thomas, who writes for the Paris weekly, L'Opinion.

A poet had it right about the desirability of a people seeing themselves as they appear to others. So, even though one does not agree with all that's said by these travelers, there is no lack of interest in their comments.

"American wastefulness is a stupefying thing to Frenchmen," says Thomas.

"Ye are thrifty, and even, we must admit, avaricious. Our experts, who cooperated with them in war enterprises, found them abominably wasteful, indifferent to costs, and improvident to the last degree."

The reason is simple, says Thomas.

"Americans are gamblers!"

"They do not want to make a moderate profit, a steady, regular, perhaps mediocre income, but, on the contrary, to make a great deal of money in a very short time, to 'get rich quick.'"

"They gamble at business—not at roulette or baccarat; but it is gambling all the same."

As for wastefulness:

"So many people there have made their money by chance, by good luck, by a flash of imagination, and not by the sweat of their brow, that they are naturally wasteful and spendthrift to an extent which we can hardly imagine in Europe."

"Everyone wastes, even the poor, and particularly the women, who, for the most part, do not seem to have time to acquire the habits of economical housekeeping possessed by the women of the Old World."

Bank cashiers who like their sleep had better leave their safes unlocked. Ohio bandits woke one out of a sound snooze and made him open the strongbox.

## DRIVING A CAR

It may have been thought that when one acquired certain fundamentals of automobiling that he could drive his car. Generally people were of the opinion that, given a knowledge of the steering apparatus, the handling of the clutch, the brake, and the few other things, lights, switch key, etc., etc., they might honk-honk their several ways hither, thither and you.

But this is not so.

Really, one should carry with him a learned lawyer, one especially gifted in the matter of statutes duly passed, approved and finally interpreted by the higher court.

This legal addition to automobile accessories is something the automobile driver of the future must take into consideration. And every toolbox should be equipped with all the latest municipal ordinances and state laws of the territory traversed. This will help wonderfully in keeping out of jail.

For there are more automobile laws in existence today than the average motorist could read in a month of Sundays!

Which isn't the worst!

The Nation's Business says 5000 new automobile measures will be introduced in the 42 state legislatures meeting in January.

And no doubt when the legislators get into action they'll think up a lot more laws to hurl at the motorist. They always do!

David Jameson, president of the American Automobile Association, makes an earnest, and much needed, plea for uniform traffic laws and uniform registration fees "which will permit the man from California to travel anywhere else in the United States without a covert feeling that somehow he is breaking a law of some sort."

Uniform laws, and better law enforcement, are of greater importance than another hatful of new laws. This should impress itself upon 42 state legislatures this winter.

## MOVIE OF A VOTER

## O'CONNELL MUST WORRY THROUGH WINTER WITHOUT HIS PET CANARY

Real Pet Would Accompany Mayor of Towner to Office and Keep Company During Day.

Towner, N. D., Nov. 2.—With the coming of North Dakota cold weather and blizzards, O. J. O'Connell, attorney and mayor of Towner, must worry through his office work without the company of his pet canary.

All summer the bird accompanies the mayor to his office and makes it cheerful with its singing, but when the winds begin to blow over the prairie, sounding a warning of winter, the little bird must remain at home.

It is hard to tell which is the more lonesome, Mayor O'Connell or the canary.

The bird has long since ceased to be the talk of local people but visitors to the city are always interested in seeing the wonderful little bird that does everything but talk. Its fame has spread to all corners of the state.

The canary is a real pet. Early in the morning it enters Mr. O'Connell's bedroom and pecks at him until he awakens. While he shaves the bird keeps flying from the bathroom to the breakfast table and is not satisfied until its owner sits down to his morning meal. The bird perches on the table beside his plate and insists on eating its breakfast from the same plate. When weather permits, the canary rests on its owner's finger and accompanies him to his office.

The little bird wants its morning bath in the sunshine inside the office window so that Mr. O'Connell's first work of the day is to provide the bird with a dish of water. After its bath is over, the bird is ready to sing all day long. When a visitor enters the office, Mr. O'Connell advises the canary to sing for him and it will sing until bidden to stop. The bird likes to pose in front of a mirror and sing its glad song to the bird in the mirror. Sometimes the little bird sings of singing for visitors and when in such a mood turns its back to the audience and spreads its wings in evident disgust, but keeps right on singing.

The bird seems to understand everything that is said to it. When asked for a kiss, it will perch on its owner's chin and bury its little bill between his lips. It knows when it is time to leave the office for lunch and waits patiently for its master to leave.

The United States Navy goes into the motion pictures. Now the ordinary pictures of naval life, which are interesting enough, but a photograph in which Uncle Sam's battleships, cruisers, submarines, submarine chasers, destroyers, seaplanes, dirigibles and other units actually had their parts and in which real American sailors acted just as "screen folk" do before the camera.

An entire fleet of warships was lent to the picture concern for the making of this great film, which is without a parallel in the history of the art. The equipment used is worth millions upon millions of dollars and could not have been bought.

The organization fortunate enough to enlist the co-operation of the Navy was Fox Film corporation, and the picture is a 15-episode serial known as "Bride 13."

It is not a war play, but shows what the American fleet would do in a bloodthirsty band of pirates gathered from the vilest quarters of the earth, were to descend on the American coast.

The picture was directed by Richard Stanton, one of the best known directors in the business, and is packed, as one can imagine, with startling stunts. There is hardly a moment without its thrill; but not one of them is tattered or beyond belief.

"Bride 13" was written by E. Lloyd Sheldon, adapted for the screen by Edward Sedgwick. Not only are the feats of the actors themselves unique in their dexterity, but the photography and staging are beautiful.

This great feature will be shown at the Eltinge theatre, beginning Friday.

## National Anthem Turned Policemen Into Statues

Boston, Mass.—By playing "The Star Spangled Banner" over and over an Italian band kept two policemen, who ordered them to stop, standing at salute in the Falls reservation, near here, until their arms dropped numb and helpless. A few Italian women and children, who were along for an outing cheered and applauded in great glee. Then the bandmen fled.

Soon after the tumultuous strains had begun resounding through the woods Policemen Jordan Frost and Roberts appeared and informed them they must stop, as they were in the state reservation. The leader at once ordered "The Star Spangled Banner" played.

## CINCINNATI WARS ON RATS

United States Department of Agriculture Assists in Extermination of Rodents.

Washington.—The health authorities of the city of Cincinnati secured the aid of the biological survey of the United States department of agriculture in planning the details of a city-wide drive to exterminate rats. The methods of poisoning and trapping the animals recommended by the department's men who have specialized in work of this kind will be followed very largely. The city has been divided into districts, in each of which a door-to-door canvass will be made to bring home to all occupants of houses, factories, stores, etc., the importance of co-operating in this important movement. A large amount of literature prepared by the department, dealing with rat extermination, will be distributed during the campaign. Special emphasis will be laid on the fact that rats are carriers of disease and are particularly apt to contaminate human food wherever it is accessible.

A Good Type of Rat Trap.

## GLUT OF RICE IN HONGKONG

\$10,000,000 Worth of Cereal Hoarded by Profiteers Finds No Market.

Hongkong.—Hongkong is overstocked with rice bought for export and held for a rise in prices even during the rice shortage, which has become serious in some other parts of southern China and other parts of the Orient. The manager of a big commercial firm here estimates that more than \$10,000,000 worth of Saigon "long" rice is stored in Hongkong.

Recently the price fell rapidly and dealers and exporters found themselves loaded up with rice, while the banks were pressing for payment of bills. Japan was not able to buy, owing to the tightness of her money market, and it was stated that American, ordinarily one of the largest buyers of rice in this market, had ceased to buy because she has enough.

The Daily Press states that about 75 per cent of the rice exported from Hongkong goes to Cuba, but that Cuba's supply had been purchased direct from the producers instead of the Hongkong middlemen.

## "Cut Pay, I'm Not Earning It," Says City Employee

Cleveland, Ohio.—"I am not earning the money I am getting and I want my salary reduced." This is the request sent to City officials by Gottlieb Pfahl. He is sixty-seven.

He worked for the city for fifteen years. When he made the request he was foreman of a bridge repair gang.

Last March his right arm was affected by paralysis. He cannot use it now.

That's why he asked for a salary cut. His request was granted.

## CATTLE RUSTLERS USE AUTOS

Cattle Are Now Taken Across the International Boundary by New Method.

Beulah, Sask.—The motorcar, it seems, has achieved another success by winning its way into the cattle rustling business. The old and well-known practice of cattle rustlers, when they used to drive their stolen herds before them, is now a thing of the past. A few days ago three calves were stolen from Beulah near Bonanza and spirited across the international border by two motorcars. Three of the rustlers were arrested on this side of the line and were taken to Montana and are now awaiting trial.

EVENTS AND GOSSIP FOR THE FANS

## MINNEOSTA U STUDENTS PLAN BIG HOMECOMING

Minneapolis, Minn., Nov. 2.—Alumni and students of the University of Minnesota are preparing for the annual homecoming of old students. November 19 and 20, and on the latter date will be staged the first Michigan game that has been played on Northrop field in recent years.

The proposed program for November 19 calls for a glee club and band recital in the armory at 8:00 p. m. Addresses will be made by President L. D. Coffman, former President M. L. Burton, now president of the University of Michigan, and the governor-elect of Minnesota, as the result of tomorrow's election. At 10:30 p. m., there will be a "pep-fest" on the University Parade, after which the alumni and undergraduates dance will be held in the Armory.

November 20, after convocation in the morning and registration of alumni at the library, there will be a parade of undergraduates and alumni by classes, ending at the parade ground, where freshmen classes of the various colleges of the university will stage a bag rush, pushball contest and similar games. The Minnesota-Michigan game is set for the afternoon, followed by open house in fraternity and sorority houses, Shevlin Hall, and the Minnesota Union.

## EVERS WILL MANAGE PLAYER WHOSE FAMOUS 'BONER' HE CAPITALIZED

Here are the principals of the most famous bonhead play of our baseball. When Fred Merkle failed to touch second in that memorable game between the Giants and Cubs, 12 years ago, Johnny Evers had a brain storm which cost the New York Giants the pennant. The Merkle "boner" made him the baseball goat for years, but his showing since then has made him partly forget it—that is as much as it will ever be forgotten. Plays of the Merkle kind make baseball history.

**BY DEAN SNYDER**

Scene shifting in the baseball show plays strange tricks of coincidence sometimes.

Next year Fred Merkle will be playing under the man who capitalized his copyrighted bonhead play back in 1908 and lost the Giants out of the pennant.

The quick-thinking brain of Johnny Evers which figured out that historic play like a flash will be doing Merkle's thinking for him in 1921.

**Costly Play**

But we wonder if the father of the famous boner has any more like them in his system and if one will crop out at some inopportune time and cheat the new Cub pilot out of a money series.

Merkle's failure to touch second in that game twelve years ago cost him and every Giant approximately \$100,000. The Merkle boner of 1908 came late in the season when the Giants and Cubs were fighting down the pennant stretch neck and neck.

won four pennants while he was a member of the fast clicking machine. He went to Boston in 1914 and the Sox capped that year.

During the war he served abroad as baseball director for the Knights of Columbus.

**Helped Giants**

This year, when Christy Mathewson's health failed, McGraw called Evers in to coach the faltering Giants. The rapid rise of the McGrawites after he began to adorn their coaching box showed that the Evers brain was still as sharp as ever.

Evers says McGraw all the credit, however. "I simply put the dash and pepper in the boys," he said.

Every one assumed that McGraw's mantle would fall on the midgey perceptor. But the team which he once helped make so powerful as a player has called him to take the place of Fred Mitchell.

**Merkle's Jinx**

Merkle ordinary is a good ball player. But he seems jinxed as a money ball player. His failure to go after a high foul off Tris Speaker's bat in the world series between the Giants and Red Sox in 1912 kicked New York out of a world championship that year.

It seems to be jinxed as a goat player in a crisis.

Will he unburden himself of another boner under the alert master mind of the Cub's new leader?

We shall see.

## High School Title To Be Open Decision

Minneapolis, Minn., Nov. 2.—The state high school football championship this season promises to be an open title due to the decision by the University of Minnesota not to conduct a final elimination contest as in former years. This decision was reached as the result of the unsatisfactory result of last season's championship games played at Northrop field.

In many instances this season, especially good high school teams have been developed, but the schedule arrangement is such that reaching a definite decision regarding the relative merits of the teams will be as uncertain as the methods usually employed in picking an all state team.

## TRAVELERS IN SPAIN WONDER AT THE CLOCKS

Madrid, Nov. 2.—Foreign visitors after a short stay in Madrid begin to doubt whether Spaniards are able to tell the time. There are scores of public clocks in government buildings and on church towers and nearly every Spaniard carries a watch, which he often looks at, but apparently these do not mean anything to the average citizen.

An invitation to a meal at a certain hour means that the host or the guest will appear half an hour or more late. An appointment for a fixed time and place always finds both parties absent at the hour named. An interview arranged with an official involves usually a wait of an hour in the ante-room. The tailor will not be ready to try on your suit until at least two days after he has promised to do so. Trains rarely start and never arrive at the scheduled hour. These are some few indications of the little interest Spaniards show in the time.

It is either morning, noon, evening or night with Spaniards generally—and of course the eternal mañana which never comes. The exact hour is nothing to them; yet thousands of them will assemble on the Puerta del Sol to watch the fall of the globe on the Ministry of the Interior at noon every day.

## ST. JOHNS WILL HAVE ADVANTAGE IN BASKET BALL

Collegeville, Minn., Nov. 2.—St. John's college will have a decided jump on other members of the Minnesota college conference when the general call for basketball candidates is issued at the end of the football season.

The local school did not put a football team into the field this season, following precedent, but the basketball squad has been taking light workouts in preparation for the coming season.

St. John's basketball team has always been in the thick of the basketball running and prospects for this season's team are better than usual.

Hamlin, St. Thomas, Carleton, St. Olaf and Gustavus Adolphus have a few basketball candidates, not on the football squad, taking light workouts. Macalester, handicapped by the lack of an adequate gymnasium, is usually a short ender in the basketball season, but efforts will be made this year to give the team an opportunity to develop in a suitable gymnasium. There are prospects of a Mac gymnasium being constructed, if a drive for funds now under way is successful.

## IT'S ALL IN THE FAMILY

Ma and Sis Will Hold Breath While Callahan Brothers Battle on Grid

**BY LORENA A. JACOBSON**  
N. Y. Staff Correspondent.

New York, Nov. 2.—When the three of them are in the arena, the eyes of all sports-loving Americans are turned to the Callahan family. Mike, Sis, and Tim are the three who will be in the center of the spotlight when the Callahan brothers battle on the grid.

SAYS MIKE: "It's going to be a great game and a great day. But winning the victory isn't all that's in it. It's playing the game that counts, no matter what the result."

SAYS SIS: "Of course, I can't know where I stand when it comes to rooting for either Mike or Tim, but I'm going to support both of them. I'm going to be proud of my boys, no matter what they win or lose, but I hope they'll win the game."

SAYS TIM: "I haven't talked for publication for two years and I'm not going to now, but when I play in the game against Princeton and my brother, I'm going to be thinking of my school and my team and not the other team or who is on it."

he compelled to sit among the hosts of rooters for either opposing eleven will be the mother of both gallant captains, a buxom Irish woman, whose heart is going to be torn between whose team wins the game and sorrow for the disappointment of the other. And with her will be a laughing, happy girl, their sister, Eunice—who'll share with her mother the

# The Cost of a Hole in the Ground

**COMMENTING** upon the rise in the price of gasoline, a man who is unfamiliar with petroleum production writes:

"The Lord, who put the oil in the earth, charges no more for it than he ever did. It comes for nothing out of the ground when you dig a hole."

This is true, if it comes out of the ground without help. The greatly increased cost lies in digging the hole, casing it, caring for the oil when it comes out, and transporting and handling it on its way to the refinery.

Petroleum Age in its September issue says: "The cost of drilling and equipping a well at the present scale of prices for material and labor runs from Five Thousand Dollars for a shallow sand pumper to Seventy-five Thousand Dollars for the deep wells. A general average covering the entire country would run about Twenty Thousand Dollars per well."

One item which is often overlooked is the cost of drilling wells which fail to produce oil. It is estimated that from 20 to 30 percent of all wells put down are dry holes.

Yet, in spite of all discouragements, which included shortage of casing, difficulties of transportation, and the increasing expense of labor, on July 31st, 1920, there were eleven thousand wells drilling or under way east of the Rocky Mountains, with completions averaging about three thousand wells a month. Probably thirty-six thousand wells will be completed during 1920.

The total expense, including investment in drilling tools, lease equipment and labor, is roughly estimated at one billion dollars.

Deducting two hundred fifty million dollars (25 percent) for salvage on equipment susceptible of further use, the net investment in new production for the year will be seven hundred fifty million dollars.

It is apparent that oil does now come "for nothing out of the ground."

Oil is usually discovered in spots remote from rail centers. The cost of pumping and transporting it to the refinery is a heavy charge. At the refinery charges begin to pile up, for refining oil is a true manufacturing process involving application of chemistry, the use of specialized machinery, and human labor.

All of these factors add to the cost of a product which Nature has given us.

The Standard Oil Company (Indiana) has been steadfastly applying the trained power of its organization to increasing the yield of gasoline from crude, and in achieving economies by large scale operations in refining and distributing its products.

**Standard Oil Company**  
(Indiana)

predicament of not knowing which side to hope for.

**Different Now**

Last year things were different. Mother and daughter both favored Yale, for they thought it would be Tim's last appearance on the gridiron. But Tim decided to return to school this year, and now it will be practically the last appearance of either in football togs.

Mrs. Callahan has impressed both sons with the idea that after all, the great battle will only be a football game, and that no discredit can reflect on the one who loses.

**Will Pet Loser**

And it's pretty safe to say that the one who loses—not wise—is going to be favored by Ma Callahan for awhile until he forgets the sting of defeat.

At the present time it looks as though Ma is going to have to do a lot of hoping for Tim, for the "Bulldog" team is not everything that it might be, having suffered a woeful defeat at the hands of Boston College earlier in the season, while the Tiger machine is a well-oiled, smooth-working steam-roller.

**Great Day**

But, taken all in all, it's going to be a great day, for:

Two teams, representing two of the three greatest colleges in the country, will be battling.

The two teams will be led by captains who are brothers.

The two captains will be playing practically their last game.

And on the headwork and footwork of both boys will hinge much of the battle.

As for us, we're rooting for a tie.
